

Level 2 Award in Managing Business Responses to Environmental
Challenges
610/0529/0

Qualification aim

This qualification will increase awareness of approaches to implement environmentally responsible business practice. It considers the impact business activities on the environment and the approaches that businesses can use to better understand and manage these impacts. It will be of interest to supervisors and managers from a wide range of industries and business.

This qualification will help learners to gain the knowledge of sustainable business practices and their contribution.

Qualification introduction

This qualification is made up of 2 mandatory units that will provide learners with the knowledge of why managing business responses is so important to environmental sustainability, what it is including the principles, standards, regulations, roles and materials.

Assessment

In order to achieve this qualification a learner must complete all units as mandatory. The assessment criteria determine the standard required to achieve each unit and allow for a variety of assessment methods to be used as appropriate to the environment the qualification is delivered in. There is no examined assessment element in this qualification.

Progression

On completion of this qualification learners will be prepared to progress to other level 2 and level 3 qualifications in a range of occupations within the sector, this could include but not limited to apprenticeships.

Achievement

Learners must achieve a total of 3 credits, by completing the 2 mandatory units to gain this qualification.
